SUMMARY

CSE student focused on consistent learning and strong problem-solving skills. Currently building foundations in Python, Data Structures, AI/ML, Data Science, and Full-Stack Development with modern frameworks. Passionate about building real-world projects, participating in hackathons, and improving technical skills.

EDUCATION

- B.E Computer Science and Engineering – Coimbatore Institute of Engineering and Technology (CGPA: 8.26) 2024 - Present

SKILLS

- **Programming:** Python, JavaScript, SQL
- **Frontend:** HTML5, CSS3, JavaScript
- **Backend:** Flask, Node.js, REST APIs
- **Data Analytics:** Power BI, Pandas, NumPy, Data Visualization
- **Tools:** Git, GitHub, PostgreSQL, Google AI Studio

PROJECTS

- **VisualForge AI** – Developed an AI-powered visualization platform for DSA, DBMS, and Theory of Computation concepts using Google Gemini.
- **Multilingual Mandi** – Built a multilingual marketplace platform using Node.js and REST APIs.
- **AlgoMentor AI**– Built an interactive platform that analyzes code, detects algorithms, and visualizes execution step-by-step.
- **Customer Segmentation**– Developed a machine learning project using K-Means clustering for customer behavior analysis with data preprocessing and visualization in Python.
- **SQL Capstone Project** - Developed a database-driven application using MySQL, Node.js, and phpMyAdmin with features like joins, filtering, pagination, and CRUD operations.
- **BMW Sales Dashboard – Power BI** - Designed an interactive sales analytics dashboard using Microsoft Power BI to visualize BMW sales insights through KPIs, charts, and filters.

EXPERIENCE

- **Full-Stack Developer Intern – Future Interns**
Worked on frontend and backend web development tasks using Flask and JavaScript.
- **Frontend Developer Intern – Cognifyz Technologies**
Developed responsive frontend interfaces using HTML, CSS, and JavaScript.

CERTIFICATIONS

- NPTEL – Strength and Conditioning for Indian Population (Elite + Gold)
- NPTEL – Basics of Python (Elite)
- NPTEL – Blockchain and Its Applications
- Digital Transformation with Google Cloud
- Google Cloud Certified Prompt Engineering Guide
- HTML5 with JavaScript & CSS3
- Software Testing for Beginners

ACHIEVEMENTS

- 2nd Place – Gemini Hack Day organized by TrishulX & Major League Hacking Community
- Top 8 Finalist among 40 teams in a national-level hackathon
- Built multiple real-world projects in AI, Full Stack Development, and Data Analytics
- Active learner focused on software development and problem-solving
